EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Justine M. Wilbur, Counsel for Applicants, on 02/17/10.

The application has been amended as follows:

IN THE ABSTRACT

On page 29, in the Abstract, lines 1-25 have been deleted and "ABSTRACT OF THE DISCLOSURE" ***followed by*** "An aqueous dispersion of water-soluble polymers obtained by free radical polymerization of ethylenically unsaturated anionic monomers in an aqueous medium in the presence of a stabilizer, wherein the stabilizer comprises: (a) at least one water-soluble polymer selected from the group consisting of a graft polymer of vinyl acetate and/or vinyl propionate on polyethylene glycol, a polyethylene glycol blocked at one or both terminal groups with an alkyl, a carboxyl or an amino group, and a copolymer of alkyl polyalkylene glycol methacrylate and methacrylic acid; and (b) at least one water-soluble polymer selected from the group consisting of a hydrolyzed copolymer of vinyl alkyl ether and maleic anhydride in the form of free carboxyl groups or in the form of salts at least partially neutralized with one or more alkali metal hydroxides or one or more ammonium bases, a cationically modified potato starch, an anionically modified potato starch, a degraded potato starch and maltodextrin." has been inserted in its stead.

IN THE CLAIMS

Art Unit: 1796

In claim 1 @ line 12, claim 3 @ line 3, claim 4 @ line 3, claim 5 @ line 7, claim 6 @ line 7, and claim 13 @ line 13, "a salt" has been deleted and "salts" has been inserted in its stead.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The instantly claimed invention is deemed allowable over the prior art of record, Hosoda et al (US 4,380,600) and Carl et al (US 5,840,804), meritorious of the closest prior art, as per said art neither anticipating nor rendering obvious the precisely defined stabilizer used for preparing an aqueous dispersion of water-soluble polymers wherein said stabilizer comprises (a) at least one water-soluble polymer selected from the group consisting of a graft polymer of vinyl acetate and/or vinyl propionate on polyethylene glycol, a polyethylene glycol blocked at one or both terminal groups with an alkyl, a carboxyl or an amino group, and a copolymer of alkyl polyalkylene glycol methacrylate and methacrylic acid; **and** (b) at least one water-soluble polymer selected from the group consisting of a hydrolyzed copolymer of vinyl alkyl ether and maleic anhydride in the form of free carboxyl groups or in the form of salts at least partially neutralized with one or more alkali metal hydroxides or one or more ammonium bases, a cationically modified potato starch, an anionically modified potato starch, a degraded potato starch and maltodextrin. One having ordinary skill in the art would have not been endowed with any motivation to modify either of Hosoda et al or Carl et al who teach aqueous dispersions of water-soluble polymers formed by the free-radical polymerization of ethylenically unsaturated anionic monomers in an aqueous medium and in the presence of at least one stabilizer which includes water-soluble starches and polyalkylene glycols by using the

Art Unit: 1796

aforementioned stabilizer in the free-radical polymerization of either Hosoda et al or Carl et al with any reasonable expectation of success.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to MARIE REDDICK whose telephone number is 2-5816. The examiner can normally be reached on 6:30 am to 3:00 pm.
